Victorian Opioid Management ECHO (Extension for community healthcare outcomes)

[2]

You are invited to register for ECHO through the attached weblink: <http://echo.pabn.org.au/> [2].

What is ECHO?

The Victorian Opioid Management ECHO convenes each week, and is your opportunity to participate in a case-based educational clinic with a proven track record for assisting patient outcomes. Using simple video conferencing technology and featuring a team of expert addiction specialists and allied health professionals, the ECHO clinic allows you to:

- present a patient case related to opioids and seek expert feedback
- listen to other clinicians' cases
- access a brief didactic lecture on a topic of interest
- claim CPD points.

All primary health and allied health professionals are welcome to participate | Support is available For more information, [please see flyer](#) [3]

RAMPS | Rural Addiction Medicine & Pharmacotherapy Service

Orticare Network offers an addiction specialist consulting service for patients and doctors in the Grampians and Loddon Mallee Regions. The RAMPS addiction specialist service offers support to general practice and other

healthcare providers in treating opioid dependence, advice and consultation on other alcohol and drug presentations and supporting home or hospital-based withdrawal.

For further information, please see the [RAMPS service flyer](#) [4]. To make a referral, please contact ramps@bchc.org.au [5] or phone 03 5338 9164.
